VIEW OUR RADIATION-SHIELDING SOLUTIONS

On this page you will find our product range for nuclear medicine & radiopharmacy. We display these products well structured, clearly visualized and complemented with product sheets. It will give you a comprehensive insight in the radiation-shielding solutions we offer.

NUCLEAR MEDICINE & RADIOPHARMACY

- Radiopharmaceutical production & research
- Shielded hoods
- Compact technetium solution
- Shielded glove box
- Hot lab furniture and accessories
  - Isotope storage safes
    - Isotope storage safe with hinged door
    - Sliding drawer isotope storage safe
  - Isotope work stations
  - Lead bricks
  - Personal protection
  - Phantoms
  - Shielded laboratory furniture
  - Shielded waste containers
  - Transport carts

RADIOPHARMACEUTICAL PACKAGING

- Type A packaging
- Lead shipping containers

SLIDING DRAWER ISOTOPE STORAGE SAFE

- Available in multiple sizes with 25 mm or 50 mm lead shielding
- Optionally with a base stand, ideal for placement underneath a table
- Provide maximum protection for the user, even when opened
- Stainless steel inside

For a better view inside the drawer the storage safe can be equipped with a mirror. Optionally a stainless steel tray is available with openings for robust storage of small lead containers.

With 25 mm lead shielding

Model VG-T-D/A-25
Inside dimensions 200*300*250 [W*D*H], weight ± 229 kg

Model VG-T-D/B-25
Inside dimensions 300*300*300 mm [W*D*H], weight ± 306 kg

Model VG-T-D/C-25
Inside dimensions 300*400*400 mm [W*D*H], weight ± 422 kg

With 50 mm lead shielding

Model VG-T-D/A-50
Inside dimensions 200*300*250 mm [W*D*H], weight ± 415 kg

Model VG-T-D/B-50
Inside dimensions 300*300*300 mm [W*D*H], weight ± 593 kg

Model VG-T-D/C-50
Inside dimensions 300*400*400 mm [W*D*H], weight ± 809 kg
